2083 LEAHY ET AL.: THE CYGNUS LOOP

2083

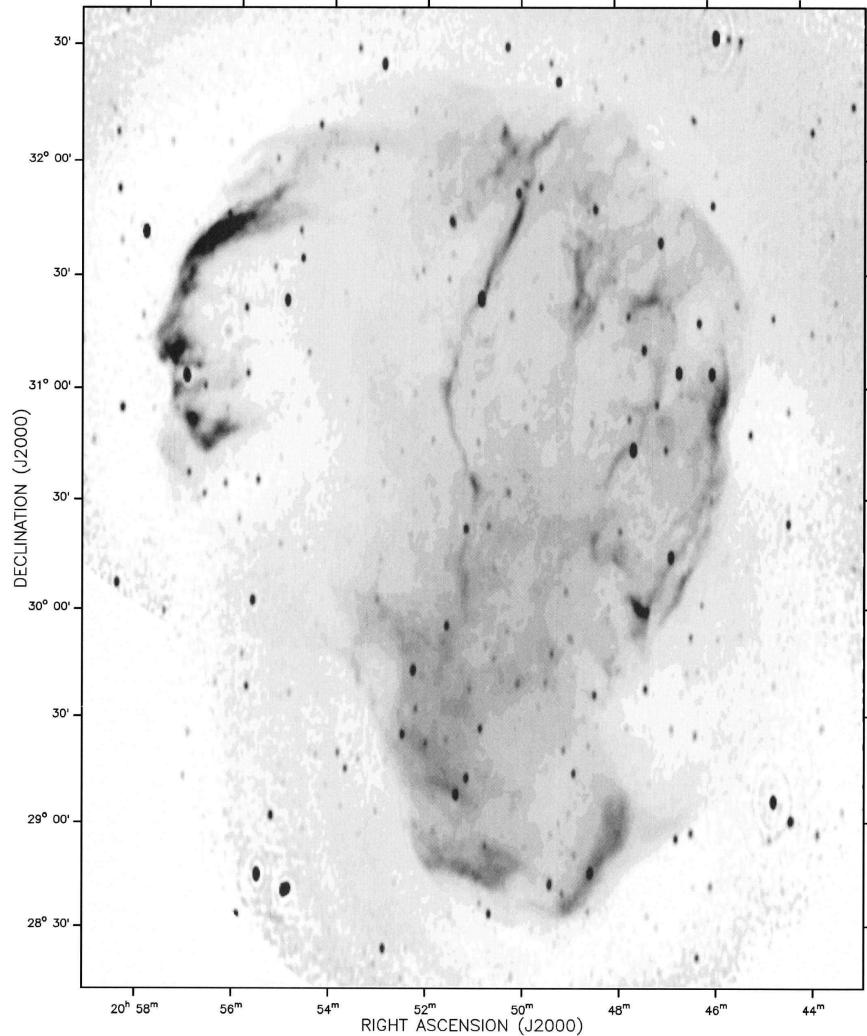

FIG. 1. 1420 MHz total intensity map of the Cygnus Loop.

lated; in other places (e.g., the NE rim and NW to SW rim)
there is no correlation between intensity and polarization.

angles covering the Cygnus Loop. The 13 regions are given
a label based on the average polarization: "hi" for values
